

Geometry Workshop

Allyn Travis

11 September 2010, Adelaide

Geometry means 'land measuring'. The geometry materials are very hands on, concrete and manipulative and are, therefore, perfect for developing the reasoning mind at the second plane. Let's spend a day together revisiting some of these wonderful materials for 6 to 12 year olds and let's look at some extensions that can grow out of this work.

Allyn Travis has a Bachelor's Degree in English from Michigan State University and a Master's Degree in Education from Loyola College of Baltimore. She also holds both 3-6 and 6-12 Diplomas from the Association Montessori Internationale (AMI) and has over thirty years of experience in Montessori teaching both children and adults. Mrs Travis is an AMI Elementary Teacher-Trainer, examiner, and school consultant. She is the full time Administrator and Director of Training at the Montessori Institute of Milwaukee, and an AMI/USA Board member.
